SPECIALITY & OTHER FINANCIAL

OAK (OAH) – 1.62P

Property developer Oak has been busy developing its flagship Yes project in South Yorkshire. The initial stages have already been accomplished and the funds to proceed will be bolstered by a £1.1 million share placing. Several interested parties have already shown a key interest in the project which ultimately will comprise two hotels, two theatres, sport facilities, as well as entertainment centres, bars and restaurants. The planning submission period has taken longer than expected and after taking advice the group has appointed new architects. (JC)

■ Shares says: Bit of an 'eggs in one basket' outfit but should continue to make slow progress.
